The Honorable Jane Dee Hull
Governor of the State of Arizona
State Capitol
Phoenix, Arizona 85007

September 16, 1998

Dear Governor Hull:

The Fund Manager of the Public Safety Personnel Retirement System respectfully submits the Twelfth Annual Report of the Corrections Officer Retirement Plan for the year ended June 30, 1998. We are pleased to report that the Plan is in excellent financial and actuarial condition. Set forth below are some of the record-breaking highlights for the fiscal year ending June 30, 1998.

The Plan has continued to improve its funding level—even while dramatically improving benefits—including the change to a straight 25-year retirement plan, the addition of a substantial health insurance subsidy and the increase in the accrual rate from 2% of pay per year of credited service to 2.5%. In fact, in just the past ten years, the Plan funding has improved from 69% to over 118%.

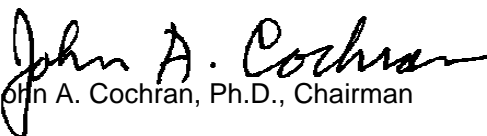

During the last year, total plan assets increased from \$449,637,296 to \$571,261,375—an increase of 27%. The fair value of the total Plan assets was nearly 34% above cost. Benefits paid to retired Corrections Officers and their beneficiaries for the fiscal year totaled \$6,883,596 compared to \$5,280,996 for the prior year. The net investment income totaled \$99,003,314 the best total on record and well above last year's total of \$80,841,733. The earnings provided 72% of the total cost of the Plan compared to 16% provided by the members and only 12% provided by the employers.

The total rate of return, which includes realized as well as unrealized gains and losses, for the entire fund was 21.70%. The individual rates of return for the stock portfolio and the bond portfolio were 27.23% and 12.28%, respectively. The Plan continues to outperform the market indexes on a short-term and on a long-term basis. The net effective yield, which takes into account only realized gains and losses, was 10.21%.

Total administrative and investment expenses increased about 9% from \$338,165 last year to \$369,377 this year. Costs have increased only 68% during the past ten years. This increase is incredibly low since the assets managed have increased 734% and the Plan membership has increased 81% during this period.

We sincerely appreciate the opportunity of serving the State and County Corrections Officers.

Respectfully submitted,

John A. Cochran, Ph.D., Chairman

The Fund Manager
Public Safety Personnel Retirement System
State of Arizona
Phoenix, Arizona

Gentlemen:

There is presented, herewith, the Twelfth Annual Report of the operation of the Corrections Officer Retirement Plan, State of Arizona, for the fiscal year ended June 30, 1998. Incorporated in this report are the audited financial statements from the June 30, 1998, report on examination of Barrows & Schatza, P.L.C., Certified Public Accountants and auditors for the Plan. Also included is the Actuarial Certification Statement and the Actuarial Balance Sheet from June 30, 1998, Actuarial Valuation prepared by the Plan's Consulting Actuary, Gabriel, Roeder, Smith & Company, Consulting Actuaries.

This report has been organized into five sections: the Introductory Section contains general information regarding the operations of the Corrections Officer Retirement Plan; the Financial Section contains the financial reports and schedules of the funds administered by the Corrections Officer Retirement Plan; the Investment Section contains detailed lists of the investment transactions and portfolios of the Plan, along with investment performance; the Actuarial Section contains actuarial information regarding the funding of the pension trusts, and the Statistical Section contains statistical data pertaining to the benefits paid by the Corrections Officer Retirement Plan and growth of the Plan.

TRANSFER OF ASSETS

House Bill 2310 was passed by the 37th Legislature during the second regular session of 1986. This bill created the Corrections Officer Retirement Plan, provided for the transfer of assets into the new Plan, made the Fund Manager of the Public Safety Personnel Retirement System responsible for the investment and administration of the Plan and made all of its provisions effective July 1, 1986. The bill required the transfer of member account balances plus the matching employer account balance from the Arizona State Retirement System for all new members of the Plan. The bill did not require the transfer of unallocated investment earnings or employer contributions made on behalf of terminated employees and still on deposit in the Arizona State Retirement System.

This caused the Plan to start at a distinct disadvantage, but through prudent investment over several years, this problem has been overcome.

FINANCIAL INFORMATION

The primary responsibility for the integrity and objectivity of the financial statements and related financial data rests with the management of the Plan. The financial statements were prepared in conformity with generally-accepted accounting principles appropriate for government-sponsored defined benefit pension plans. Management believes that all other financial information included in this annual report is consistent with those financial statements.

It is the Plan's policy to maintain a control-conscious environment through an effective system of accounting controls. These controls are adequate to provide reasonable assurance that assets are safeguarded against loss or unauthorized use and to produce the records necessary for the preparation of financial information. There are limits inherent in all systems of internal control based on the recognition that the costs of such plans should be related to the benefits to be derived. Management believes the Plan's controls provide this appropriate balance.

The Plan uses the accrual basis of accounting for both revenues and expenses. Contributions to the Plan are based on principles of level-cost financing with current service financed as a level percent of payroll on a current basis and prior service amortized as a level percent of payroll over a rolling twenty (20) year period.

REVENUES

Revenues to the Plan are derived from three sources; member contributions, employer contributions and investment income. As shown by the Statement of Revenues by Source included with the financial statements later in this report, the investment earnings totaled a record high of \$99,043,141 during the 1997/1998 fiscal year and provided 72% of the total funding of the Plan. Member contributions made up 16% of total revenue and employer contributions made up 12% of the total revenues. Please refer to the Financial Section for a ten-year history of revenues and expenses.

ADMINISTRATIVE AND INVESTMENT EXPENSES

The 1997/1998 Administrative and Investment Expenses of the Administrative Office totaled \$369,377 compared to \$338,165 for the prior year. Costs have risen 68% during the past ten years. This is a compounded annual rate of increase of 5.3% over the last ten years. This rate of increase is well below the rate of growth of the Plan. A dedicated staff and constantly improving internal expertise has allowed management to keep costs minus inflation very low for the past ten years even though membership and assets managed have increased substantially during this same period (over 81% and over 734%, respectively).

INVESTMENTS

Since the Plan is well-funded, the management takes a moderately conservative approach to investing. The Plan invests primarily in bonds rated A or better and blue-chip common stock. A detailed summary of the investment portfolio and all investment transactions is presented in the Investment Section. At year-end, the investment portfolio was made up of 14.44% U. S. Government Securities, 14.39% Corporate Bonds, .35% Corporate Notes, 1.40% Other Investments, .04% insured Money Market Funds and 69.38% Common Stocks. All investments are held in trust by the Arizona subsidiary of one of the largest banks in the world.

Even with this relatively conservative investment philosophy, the fixed income portfolio has outperformed the Lehman Government Corporate Bond Index in eight of the last ten years and the equity portfolio has outperformed the NYSE Index in eight of the past ten years. This extraordinary performance resulted in a net effective yield of 10.21% and a total rate of return of 21.70% for the 1997/1998 fiscal year. Graphs depicting the fund's extraordinary performance since 1986, the year internal staff took over the portfolio management, can be found in the Investment Section.

ECONOMIC OUTLOOK

The economy seems to be leveling off. It is likely the economy will continue its moderate growth. With interest rates so low, it may be difficult to continue to outperform the Plan's 9% assumed rate of investment return over the next couple of years.

ACTUARIAL AND FUNDING INFORMATION

Funding a retirement plan on a sound actuarial reserve basis involves the accumulation of substantial reserves to guarantee the payment of promised benefits. These reserves are invested and the rate of investment earnings, over time, is a major factor in determining the employer contribution requirement to meet the calculated level cost of the Plan.

There is no single all-encompassing test to measure a retirement plan's funding progress and current status. A traditional measure is the ratio of assets to unfunded accumulated normal costs, often referred to as the "percent funded." The percent funded for the Plan at June 30, 1998, is 118.1% which is well ahead of schedule. All twelve participating units have fully-funded actuarial accrued liabilities.

The Plan is funded through a member contribution of 6.65% of gross payroll (8.50% effective 7-1-97), an employer contribution set by an actuarial valuation expressed as a percent of gross payroll and a distribution of the net earnings of the Plan. While each employer has a different contribution rate, the average for the entire Plan for the 1999/2000 fiscal year will be 5.14% of gross payroll. Of the 12 groups that make up the Plan, all twelve employers will pay less than the 8.50% which the employees pay.

POST RETIREMENT BENEFIT INCREASES

State law provides for an annual benefit increase for retirees or their survivors who are over age fifty-five on the effective day of the increase and for disability retirees regardless of age. These increases are dependent upon the

production of excess earnings on a portion of the system's assets and are limited to four percent of the average benefit being paid.

Below is a schedule of the increase in monthly benefits granted since this program began:

July 1, 1993 - \$ 5.00
July 1, 1996 - \$10.00
July 1, 1997 - \$15.00
July 1, 1998 - \$25.00
July 1, 1999 - \$32.41

Cumulative Total - \$87.41

A benefit increase schedule showing how these amounts were calculated can be found in the Statistical Section.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the CORP for its comprehensive annual financial report for the fiscal year ended June 30, 1997. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such comprehensive annual financial report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the Government Finance Officers Association.

SUMMARY

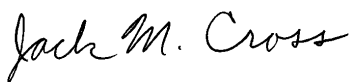

The System's Actuary, Gabriel, Roeder, Smith & Company, summarized the results of the latest Actuarial Valuation as of June 30, 1998, as follows:

The results of the valuations indicate that Retirement Plan benefit obligations are being funded as incurred. Current assets are 118.1% of actuarial accrued liabilities. This is an excellent level of accrued funding and well ahead of schedule. Superior investment returns, over an extended period, have made possible the excellent actuarial condition of the Retirement Plan, improved benefits for members retiring in the future, cost-of-living increases to retired members and their beneficiaries without substantial increases in contribution requirements.

The Plan has made excellent progress during the past twelve years. Funding has increased from 69% to 118.1%. Investment and administrative expenses increased less than 68% during the past ten years while total assets and membership were up 734% and 81% respectively. Employer contribution rates have remained low. All this was accomplished even while improving benefits to members. The service multiplier has been increased from 2% to 2.5%; members can now retire after 25 years of credited service at any age or if the sum of their age and years of credited service equals 80; survivor and disability benefits have been improved and a substantial health insurance subsidy has been added.

I am proud to have been part of the Plan's management team and I look forward to the Plan's continued success in the future.

Respectfully submitted,

Jack M. Cross, C.P.A., C.F.A.

INDEPENDENT AUDITOR'S REPORT

**FUND MANAGER
STATE OF ARIZONA PUBLIC SAFETY
PERSONNEL RETIREMENT SYSTEM
PHOENIX, ARIZONA**

We have audited the accompanying statements of plan net assets of the **STATE OF ARIZONA PUBLIC CORRECTIONS OFFICER RETIREMENT PLAN** as of June 30, 1998 and 1997, and the related statements of changes in plan net assets for the years then ended, appearing on pages 15 and 16, respectively. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of **STATE OF ARIZONA CORRECTIONS OFFICER RETIREMENT PLAN** as of June 30, 1998 and 1997, and the results of its operations and the changes in fund balances for the years then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplementary information, contained on pages 23 and 24, schedule of funding progress and schedule of employer contributions, are required disclosures under Governmental Accounting Standards Board (GASB) statement No. 25 and are not a required part of the basic financial statements. Also, the accompanying additional information, contained on pages 25 to 27, are not required disclosures under Governmental Accounting Standards Board (GASB) statement No. 25 and are not a required part of the basic financial statements. The accompanying additional information described above has been subjected to the auditing procedures applied in our audit of the 1998 financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

**STATE OF ARIZONA
CORRECTIONS OFFICER RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 1998 AND 1997**

NOTE 1 - PLAN DESCRIPTION

Organization

The Corrections Officer Retirement Plan (CORP) is an agent multiple-employer public employee retirement system established by Title 38, Chapter 5, Article 6 of the Arizona Revised Statutes, to provide benefits for prison and jail employees of certain state and local governments. The plan is jointly administered by the Fund Manager of the Public Safety Personnel Retirement System (PSPRS) and 12 Local Boards.

The Fund Manager is a five-member board. Three members are appointed by the Governor and two members are appointed by the state legislature. All members serve a fixed three-year term. The Fund Manager is responsible for the investment of the plan's assets, setting employer contribution rates in accordance with an actuarial study, adopting a budget, hiring personnel to administer the plan, setting up records, setting up accounts for each member and each Local Board, and the general protection and administration of the Plan.

Each employer participating in the Plan has a five-member Local Board. Three members are appointed by the chief elected official of the organization and two members are elected by the active members of the eligible group. In general, each member serves a fixed four-year term. Each Local Board is responsible for determining eligibility for membership, service credits, eligibility for benefits, timing of benefit payments, and the amount of benefits for its eligible group of employees. All costs associated with the administration of the Local Boards are paid by the various governing bodies.

The addition or deletion of eligible groups does not require the approval of the other participating employers. New eligible groups are approved for participation by the Fund Manager. The CORP is not reported as a component unit of any other organization. The Local Boards are reported as component units of their respective sponsoring organization.

The Fund Manager of the CORP is also responsible for the investment and general administration of two other statewide retirement plans—the Public Safety Personnel Retirement System and the Elected Officials' Retirement Plan. The investments and expenses of these plans are held and accounted for separately from those of the CORP. Since none of the plans have the authority to impose their will on any of the other plans, each plan is reported as its own stand-alone government.

At June 30, 1998 and 1997, the number of participating local government employer groups was:

	1998	1997
Counties	10	10
State Agencies	2	2
Total Employers	12	12

Any county or city in the State of Arizona may elect to have its eligible employees (generally, prison or jail personnel who have direct inmate contact) covered by the CORP. At June 30, 1998 and 1997, statewide CORP membership consisted of:

	1998	1997
Retirees and beneficiaries currently receiving benefits	708	598
Terminated vested employees	109	54
Current employees		
Vested	1,938	1,804
Non-vested	7,633	7,924
Total Members	10,388	10,380

CORP provides retirement benefits as well as death and disability benefits. Generally, all benefits vest after 10 years of credited service. A summary of benefits and Plan provisions follows:

SUMMARY OF BENEFITS

Eligibility

- A. For a county, a county detention officer or a non-uniformed employee of a sheriff's department whose primary duties require direct inmate contact, if the county elects to join the Plan.
- B. For the State Department of Corrections, correctional service officers, state correctional program officers and certain other designated positions within the department which are prescribed by statute.
- C. For the State Department of Juvenile Corrections, youth corrections officers, youth program officers and certain other designated positions within the department which are prescribed by statute.
- D. For a city or town, a city or town detention officer, if the city or town elects to join the Plan. (A.R.S. Section 38-881)

Credited Service

Service in a designated position for which member contributions have been made to the Plan or transferred to the Plan from another retirement system for public employees of this state. (A.R.S. Section 38-881)

Salary

The base salary, base wages, shift differential pay, and holiday pay paid to a member in a designated position for personal services rendered to a participating employer that is paid on a regular monthly, semimonthly or biweekly payroll basis. (A.R.S. Section 38-881)

Average Monthly Salary

One thirty-sixth (1/36) of aggregate salary paid a member during the highest three consecutive years out of the last ten years of service. (A.R.S. Section 38-881)

Normal Retirement

First day of month following completion of twenty-five years of service, a member's sixty-second birthday and completion of ten years of service, or the month where the sum of the member's age and years of credited service equals eighty. (A.R.S. Section 38-885, Subsection B)

The amount of monthly normal pension is based on credited service and average monthly salary as follows:

2.5 percent of the member's average monthly salary multiplied by the member's credited service to a maximum of thirty (30) years. The amount of a member's pension shall not exceed seventy-five percent (75%) of the member's average monthly salary. (A.R.S. Section 38-885, Subsections C and D)

Accidental Disability Retirement

A physical or mental condition which totally and permanently prevents an employee from performing a reasonable range of duties within the employee's department, was incurred in the performance of the employee's duties and was the result of either physical contact with inmate(s), responding to a confrontational situation with inmate(s) or a job-related motor vehicle accident and was not the result of a physical or mental condition or injury that existed or occurred before the member's date of membership in the Plan.

Eligibility for an accidental disability or a total and permanent disability shall be based on medical evidence and determination by the Local Board. No credited service requirement. The monthly pension is fifty percent (50%) of the member's average monthly salary. The Local Board may require periodic medical re-evaluations until the member reaches age 62. Accidental disability or a total and permanent disability pension terminates if the Local Board finds the retired member no longer meets the requirements for the disability pension. (A.R.S. Section 38-886)

Total and Permanent Disability Retirement

A physical or mental condition which totally and permanently prevents a member from engaging in any gainful employment, is the direct and proximate result of the member's performance of their duty as an employee and is not the result of a physical or mental condition or injury that existed or occurred before the member's date of membership in the Plan.

Eligibility for an accidental disability or a total and permanent disability shall be based on medical evidence and determination by the Local Board. No credited service requirement. The monthly pension is fifty percent (50%) of the member's average monthly salary. The Local Board may require periodic medical re-evaluations until the member reaches age 62. Accidental disability or a total and permanent disability pension terminates if the Local Board finds the retired member no longer meets the requirements for the disability pension. (A.R.S. Section 38-886)

Survivor Pension

The surviving spouse of a member who dies in service or after retirement is eligible for benefits as follows:

Surviving spouse of retired member; Two-thirds of retired member's pension at time of death. Requires two years of marriage at time of death. Terminates on death of surviving spouse. (A.R.S. Section 38-887)

Surviving spouse of a non-retired member; One-third of deceased member's average monthly salary. Requires two years of marriage at time of death. Terminates on death of surviving spouse. (A.R.S. Section 38-888)

Both surviving spouse pensions commence on first day of month following death of member.

Death Benefits

1. If an active or inactive member dies and no pension is payable, the member's beneficiary is entitled to receive two times his contributions to the CORP. (A.R.S. Section 38-904, Subsection A)
2. If there is no eligible surviving spouse or if the pension of the surviving spouse is terminated, surviving unmarried children of a deceased retired or active member are entitled to a pension until age 18, or age 22 if a full-time student. A disabled child is also entitled to a pension if the disability began before age 18. The amount of the pension is an equal share of the surviving spouse's pension. (A.R.S. Section 38-904, Subsection B)

Termination Refund

On termination of employment, for any reason other than death or retirement, a member with less than 10 years of credited service under the Plan is entitled to receive a lump-sum payment equal to his accumulated member contributions as of the date of termination, less any benefits paid or any amounts owed to the Plan. A member with 10 or more years of credited service is entitled to receive his contributions plus interest compounded annually at a rate set by the Fund Manager. The refund will be paid within 20 days after filing written application with the Fund Manager. A member forfeits all membership rights and credited service in the Plan upon receipt of refund of contributions. (A.R.S. Section 38-884, Subsections C and E)

Re-employment and Repayment of Contributions

A member who terminates and takes a refund of his contributions may elect, upon reemployment within two years with the same employer in a designated position, to recover his prior credited service if he submits a written election to reinstate the forfeited credited service within 90 days after reemployment and reimburse the Plan within one year. The amount required to reinstate the credited service is the amount previously withdrawn plus compounded interest, at the rate of the Plan's net effective yield, from the date of withdrawal to the date of repayment. (A.R.S. Section 38-884, Subsection F)

A retired member who becomes an employee in a designated position subsequent to retirement shall have his pension suspended during his reemployment in a designated position and shall not make contributions to the Plan nor accrue credited service during such re-employment. (A.R.S. Section 38-884, Subsection G)

Transfer into or out of Plan

A member who changes employment or transfers or is assigned to a non-eligible position, because of a change in duties or otherwise, may elect one of the following options:

1. Leave service credits and contributions on account with CORP.
2. Apply for refund of accumulated member contributions (forfeiting all service credits and membership rights).
3. Transfer all service credits to the Arizona retirement system or plan applicable to the new position pursuant to the requirements for transfer between Arizona state retirement systems.

A member who begins employment with a participating employer in this Plan and who has credited service from a different Arizona state retirement system may transfer or redeem his prior service to this Plan pursuant to the requirements for transfer between Arizona state retirement systems. (A.R.S. Section 38-901, Subsection B)

Transfer of Contributions

A member who terminates employment with an employer and accepts a position with the same, or another employer participating in the Plan, shall have their credited service transferred to their record with the new employer if they leave their accumulated contributions on deposit with the Fund. The termination of employment does not constitute a break in service; however, the period not employed shall not be considered as credited service. (A.R.S. Section 38-908)

Transfer Between State Retirement Systems

Members of any of the four Arizona state retirement systems or plans who have credited service under another Arizona state retirement system or plan may transfer or redeem the credited service to their current Arizona state retirement system or plan by paying or transferring the full actuarial present value of the credited service into their current Arizona retirement system or plan with approval of the Fund Manager or retirement boards involved. A reduced credited service

amount may be transferred based on the transfer of the actuarial present value of the credited service under the prior Arizona state system or plan. (A.R.S. Section 38-921 and Section 38-922)

COLA Benefit Increases

Effective July 1 of each year, all CORP retirees or survivors who are 55 years of age or older and all disability retirees regardless of age, who were receiving benefits on or before June 30 of the previous year, may be entitled to a permanent benefit increase in their base benefit in the maximum amount of four percent (4%) of the average normal CORP benefit being received on the preceding June 30 contingent upon sufficient excess investment earnings for the fund. (A.R.S. Section 38-905)

Health Insurance Premium Subsidy

For CORP retirees who have group health and accident insurance coverage provided and administered by the state or another CORP employer, the CORP will pay up to \$95 per month for part of the premium for the retirees' individual coverage and an additional \$80 per month for part of the premium for family health and accident insurance coverage. If the person is eligible for Medicare, the subsidy is \$65. If the dependent is eligible for Medicare, the family subsidy is an additional \$50. (A.R.S. Section 38-906)

State Taxation of CORP Benefits

Effective tax year commencing January 1, 1989, all CORP retirement benefits in excess of \$2,500 annually will be subject to Arizona state tax. (A.R.S. Sections 38-896 and Section 43-1022)

Contributions

Each member shall contribute 8.5% of his salary to the Plan on an after-tax basis by payroll deduction. (A.R.S. Section 38-891, Subsection B). Each employer shall contribute a level percent of compensation as determined by actuarial valuation to ensure proper funding for the Plan. (A.R.S. Section 38-891, Subsection A)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

Basis of Accounting

CORP financial statements are prepared using the accrual basis of accounting. Member and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits due are paid in arrears on the last working day of each month. Refunds are due and payable by state law within 20 days of receipt of a written application for a refund. Refunds are recorded when paid. Furniture and equipment purchases, which are not material in amount, are expensed in the year of purchase. Investment income net of administrative and investment expenses is allocated to each employer group based on the average relative fund size for each employer group for that year.

The Plan implemented Statement Number 25 of the Governmental Accounting Standards Board for Fiscal Year End 1997. As such, the Plan reports assets on a Fair Value Basis. Certain cost information is provided to comply with state law.

By state statute, this Plan is required to provide information in the financial statements used to calculate Net Effective Yield. Net Effective Yield includes only realized gains and losses. The Realized Gains used in this calculation totaled \$19,685,436 for FYE 1998 and \$17,018,326 for FYE 1997.

Investments

CORP investments are reported at Fair Value and at Cost. Fair values are determined as follows. Short-term investments are reported at Fair Value, which approximates Cost. Equity securities are valued at the last reported sales price. Fixed-income securities are valued using the last reported sales price or the estimated fair market value as determined by one of the world's largest and most prominent fixed-income broker/dealers. Investments that do not have an established market are reported at estimated fair value. Investment income is recognized as earned.

Statutes enacted by the Arizona Legislature authorize the Fund Manager to make investments in accordance with the "Prudent Man" rule. The Fund Manager is not limited to so-called "Legal Investments for Trustees." In making every investment, the Fund Manager shall exercise the judgement and care under the circumstances then prevailing which men of ordinary prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income from their funds as well as the probable safety of their capital, provided:

- 1) That not more than seventy per cent of the pension fund shall be invested at any given time in corporate stocks, based on cost value of such stocks irrespective of capital appreciation.
- 2) That not more than five per cent of the pension fund shall be invested in securities issued by any one institution,

agency or corporation, other than securities issued as direct obligations of and fully guaranteed by the United States Government.

- 3) That not more than five per cent of the voting stock of any one corporation shall be owned.
- 4) That corporate stocks eligible for purchase shall be restricted to stocks which, except for bank stocks and insurance stocks, are either:
 - a) Listed or approved on issuance for listing on an exchange registered under the securities exchange act of 1934, as amended (15 United States Code §§ 78a through 7811)
 - b) Designated or approved on notice of issuance for designation on the national market system of a national securities association registered under the securities exchange act of 1934, as amended (15 United States Code §§ 78a through 7811)
 - c) Listed or approved on issuance for listing on an exchange registered under the laws of this [Arizona] state or any other state.
 - d) Listed or approved on issuance for listing on an exchange of a foreign country with which the United States is maintaining diplomatic relations at the time of purchase, except that no more than ten per cent of the pension fund shall be invested in foreign equity securities on these exchanges, based on the cost value of the stocks irrespective of capital appreciation.

The Plan's investment portfolio is in compliance with state law.

Statement No. 3 of the GASB requires government entities to categorize investments for the purpose of giving an indication of the level of risk assumed by the entity at year-end. Category 1 includes investments that are insured or registered or for which securities are held by the Plan or its agent in the name of the Plan. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the Plan's name.

All investments of the Plan (other than those held by broker-dealers under the security loan program and those investments categorized as "Other Investments") meet the criteria of Category 1. "Other Investments" are not considered securities for purpose of credit risk classification. Substantially, all investments are held in the name of the Plan by its custodian bank.

Money Market Account

The money market account is a deposit with an Arizona bank. Deposits are insured by federal depository insurance.

The money market account is subject to the general depository laws of the State of Arizona which require deposits to be either insured by the Federal Deposit Insurance Corporation or collateralized by certain securities including U.S. Government obligations and first mortgages.

Securities Lending Income

The System is party to a securities lending agreement with a bank. The bank, on behalf of the System, enters into agreements with brokers to loan securities and have the same securities returned at a later date. The loans are fully collateralized primarily by cash. Collateral is marked-to-market on a daily basis. Non-cash collateral can be sold only upon borrower default. The System requires collateral of at least 102% of the market value of the loaned U.S. Government or corporate security. Securities on loan are carried at market value. As of June 30, 1998 and 1997 the market value of securities on loan was \$75,633,424 and \$117,154,202, respectively. The System receives a negotiated fee for its loan activities and is indemnified for broker default by the securities lending agent. The System participates in a collateral investment pool. All security loans can be terminated on demand by either the pool participants or the borrower. All term loans have a matched collateral investment. Cash collateral received for open loans is invested for longer term, however, at least 20% of total collateral investments must be invested on an overnight basis and at least 30% of total collateral investments must be invested with a maturity of 7 days or less. Additionally, no more than 20% of the total collateral investments will be invested in instruments maturing in over 91 days. In lending securities, investments of cash collateral for open loans as of June 30, 1998 are not matched in maturity and have a weighted average maturity of 16 days, 23 days as of June 30, 1997. The System has no credit risk under this program and has experienced no default or losses on these loans.

NOTE 3 - CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

The Retirement Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The normal cost and actuarial accrued liability are determined using an entry age actuarial funding method. Unfunded actuarial accrued liabilities and assets in excess of actuarial accrued liabilities are being amortized as a level percent of payroll over a rolling twenty (20) year period.

During the year ended June 30, 1998, contributions totaling \$38,710,505 (\$17,063,015 employer and \$21,647,490 member) were made in accordance with contribution requirements determined by an actuarial valuation of the Plan as of June 30, 1996. The employer contributions consisted of \$18,607,179 for normal cost less (\$1,544,164) for amortization of the assets in excess of the actuarial accrued liability in aggregate. Employer contributions represented 6.63% of covered payroll. [7.23% for normal costs and (.60)% for amortization of assets in excess of the actuarial accrued liability in aggregate.] Member contributions represented 6.65% of covered payroll until July 21, when the rate increased to 8.50% and is all attributable to normal costs.

During the year ended June 30, 1997, contributions totaling \$32,756,937 (\$16,704,445 employer and \$16,052,492 member) were made in accordance with contribution requirements determined by an actuarial valuation of the Plan as of June 30, 1995. The employer contributions consisted of \$17,307,058 for normal cost less (\$602,613) for amortization of the assets in excess of the actuarial accrued liability in aggregate. Employer contributions represented 6.93% of covered payroll. [7.18% for normal costs and (.25)% for amortization of assets in excess of the actuarial accrued liability in aggregate.] Member contributions represented 6.65% of covered payroll and is all attributable to normal costs.

NOTE 4 – REQUIRED SCHEDULES

The Schedule of Funding Progress and the Schedule of Employer Contributions and Revenues and Expenses by Type is presented immediately following the notes to the financial statements.

**STATE OF ARIZONA
CORRECTIONS OFFICER RETIREMENT PLAN
SCHEDULE OF FUNDING PROGRESS**

While not any one or two numeric indices can fully describe the financial condition of a retirement system, the ratio of unfunded actuarial accrued liabilities to active member payroll is significant. The ratio of unfunded actuarial accrued liabilities to member payroll is a relative index of condition where inflation is present in both items. Observation of the ratio over a period of years gives an indication of funding achievement. The smaller the index, the stronger the system's condition. Shown below is a Comparative Schedule (\$ in thousands) since legislation was enacted in 1987, setting up a 40-year amortization schedule. Effective June 30, 1997, Unfunded (Excess) Actuarial Accrued Liabilities are being amortized on a level percent method over a rolling twenty (20) year period.

Actuarial Valuation Date	Actuarial Value of Assets (a) ²	Actuarial Liability (AAL) —Entry Age (b)	Unfunded (Excess) AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
6-30-87	\$ 47,550	\$ 68,932	\$ 21,382	69.0%	\$ 102,910	20.8%
6-30-88	69,842	76,884	7,042	90.8	117,234	6.0
6-30-89 ¹	88,756	99,113	10,357	90.0	134,520	7.7
6-30-90 ¹	108,973	122,578	13,605	88.9	136,693	10.0
6-30-91 ¹	138,901	146,300	7,399	94.9	153,351	4.8
6-30-92	168,553	163,640	(4,913)	103.0	156,257	(3.1)
6-30-93*	198,692	184,299	(14,393)	107.8	166,831	(8.6)
6-30-94 ¹	223,902	221,487	(2,415)	101.1	177,717	(1.4)
6-30-95	265,006	254,189	(10,817)	104.3	198,603	(5.4)
6-30-96*	319,255	290,518	(28,737)	109.9	224,686	(12.8)
6-30-97* ¹	393,904	355,590	(38,314)	110.8	249,203	(15.4)
6-30-98	\$ 484,956	\$ 410,531	\$ (74,425)	118.1%	\$ 261,700	(28.4)%

* One-time cost-of-living adjustments for retired members and survivors, effective July 1 were included in this valuation. Future increases for retirees and their survivors over age fifty-five are dependent upon excess earnings created by the Fund.

1. Reflects significant plan amendments or assumption changes.
2. Excludes the amount held in reserve for future benefit increases. Beginning 6-30-95, includes an amount for partial recognition of the difference between market value and book value of plan assets amortized over a four year period.

AAL is calculated using the entry age normal method. Significant assumptions used in determining AAL include (a) a rate of return on the investment of present and future assets of 9.0% per year compounded annually, (b) projected salary increases of 6.5% per year compounded annually, attributable to inflation and other across-the-board factors, (c) additional projected salary increases ranging from 0.0% to 3.0% per year, depending on age, attributable to seniority/merit.

FUND OBJECTIVES

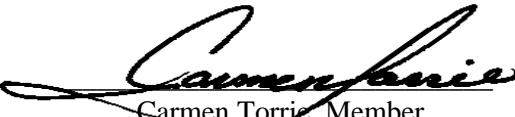

1. The intent of the Public Safety Personnel Retirement System, the Elected Official's Retirement Plan and the Corrections Officer Retirement Plan (herein after referred to as the Plan) is to provide the Plan participants benefits as defined in Title 38, chapter 5, articles 3, 4 and 6 of the Arizona Revised Statutes.
2. The Fund Manager and the Administrator will discharge their duties with respect to the Plan solely in the interest of the Plan participants, beneficiaries and employer sponsors. In making every investment, the Fund Manager shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income from their funds as well as the probable safety of their capital, provided these investments are made in conformity with all applicable laws.
3. The intention of the Plan is to maintain the benefit level as stated in Title 38, chapter 5, articles 3, 4 and 6 of the Arizona Revised Statutes and as amended from time to time by the Arizona State Legislature. In order to maintain this benefit level the Plan will annually adjust the employer contribution rate based on the recommendations made by the annual actuarial valuations. The Plan's funding goal is for the Plan assets to be equal to Plan liabilities within any twenty-year period.
4. It is the intent of the Plan to level off or reduce the employer contribution rate to the Plan as well as to provide the opportunity for increased benefits for retirees as the legislature may from time to time enact, through the systematic growth of the investments of the fund.
5. The primary objective of the investment program of the Plan is a reasonable, long-range total rate of return. Inherent in this goal is the preservation and enhancement of capital through effective management of the portfolio in order to take advantage of attractive opportunities various market sectors have to offer.

Adopted this 17th day of June, 1998, by the Fund Manager.

The Fund Manager
Corrections Officers' Retirement Plan

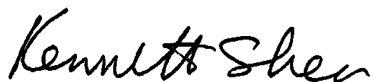

Dear Sirs:

The attached charts and tables depict the investment performance for the Corrections Officers' Retirement Plan of the State of Arizona. The performance results shown are based entirely on data provided by the plan's staff and does not constitute an audit on Standard & Poor's part. We note that Standard & Poor's has assumed that all data that has been supplied by the staff is accurate and complete and that Standard & Poor's has not taken steps to verify same. We also note that the performance was calculated under the assumption that cash inflows and outflows take place uniformly through each month.

The performance data include realized and unrealized capital gains and losses, as well as interest and dividend income earned by the fund. Computations were performed in accordance with accepted AIMR procedures.

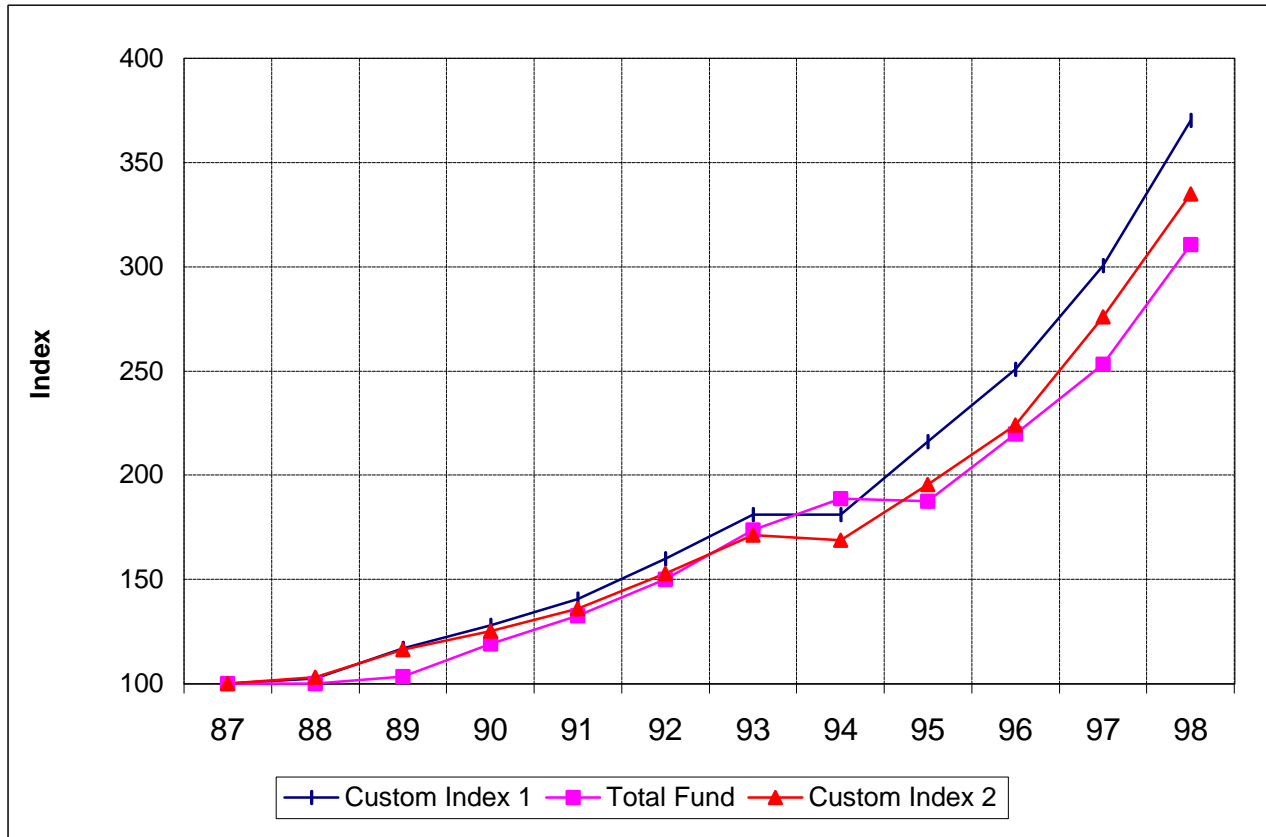

Based on the foregoing, during the past fiscal year, the stock portfolio underperformed the NYSE and S&P 500 indices, while the bond portfolio outperformed the Lehman Government/Corporate Index. The overall fund underperformed two custom benchmarks, each using a bond and stock index invested in the same proportion as the overall fund. The overall fund has attained a rate of return over the past decade that compares favorably with these custom indices.

Sincerely,

Kenneth Shea
VP - Director of Equity Research

*Custom Index 1 is the average percentage in bonds times Lehman Govt/Corp Bond Index plus average percentage in stocks times S&P 500 Index

**Custom Index 2 substitutes the NYSE Index for the S&P 500. Our investment universe was the New York Stock Exchange (NYSE) prior to July 21, 1997.

Prior to 1990 the weightings in each asset class were calculated using the fiscal year-end market values.

Since 1990, the asset class weightings have been calculated using the average weightings of the quarter's beginning & ending market values.

The Fund Manager
Arizona Public Safety Personnel
Retirement System
1020 East Missouri
Phoenix, Arizona 85014

Attention: Jack Cross, Administrator

We certify that the June 30, 1998 annual actuarial valuations of the Arizona Corrections Officer Retirement Plan, determining the June 30, 1998 actuarial assets and liabilities for participating groups, were made in accordance with recognized actuarial methods.

Actuarial assets are computed on a smoothed market basis which spreads differences between actual and assumed investment return over a four year period. The data, submitted by the Administrator, was checked for completeness and year to year consistency but was not otherwise audited.

It is our opinion that the actuarial information contained in the valuation report is complete and accurate, being based on risk experience assumptions which are in the aggregate related to the experience of the Plan and are our best estimate of an anticipated future experience. The actuarial assumptions were adopted by the Fund Manager based on the recommendation of the Plan's actuary. A complete experience analysis is performed every 5 years. The assumptions and methods conform to the parameters established in Governmental Accounting Standards Board Statement 25. Actuarial gains (losses) are amortized as level percents of payroll over 20 years.

The results of the valuations indicate that the contribution rates are funding the obligations of the Plan a incurred on a level percent of payroll basis. Actuarial accrued liabilities are fully covered by accrued assets as of June 30, 1998.

Respectfully submitted,

Sandra W. Rodwan
Member, American Academy of Actuaries

Enclosure

**Corrections Officer Retirement Plan
Actuarial Balance Sheet June 30, 1998**

Actuarial Assets

Accrued assets		
Member accumulated contributions	\$ 93,758,470	
Employer and benefit payment reserves	348,104,246	
Funding value adjustments	<u>58,603,656</u>	
Total accrued assets*		\$ 500,466,372
Prospective assets (computed value)		
Member contributions	222,546,736	
Employer normal costs	176,215,224	
Employer unfunded actuarial accrued liability	<u>(74,425,164)</u>	
Total prospective assets		<u>324,336,796</u>
Total Actuarial Assets		\$ <u>824,803,168</u>

* Includes \$ 15,510,421 reserve for payment of ad hoc pension increases. The net funding value of assets is \$484,955,951.

Actuarial Present Values (Liability)

Pensions in payment status		
Service pensions	\$ 45,686,904	
Disability pensions	5,523,422	
Survivor pensions	10,571,983	
Health insurance	<u>4,560,518</u>	
Total benefit values		\$ 66,342,827
Prospective pension payments for future retirements		695,008,440
Prospective health insurance payments for future retirements		32,829,557
Prospective refunds of members contributions		15,111,923
Reserve for ad hoc pension increases		<u>15,510,421</u>
Total Actuarial Present Values (Liability)		\$ <u>824,803,168</u>

Summary of Valuation Methods

Normal cost contributions were computed as follows:

1. Service pensions (including potential survivors pensions). The series of contributions, payable from date of employment, sufficient to accumulate at time of retirement the discounted value of each member's projected pension and potential survivors pension was computed, using the assumptions summarized on the following pages, so that each contribution in the series is a constant percentage of the member's year by year projected compensation (entry age normal cost).
2. Disability and pre-retirement survivor pensions. Same as service pensions.
3. Post-retirement health insurance subsidy. Same as service pensions. No increase was assumed in the flat dollar amounts of subsidy.

Actuarial accrued liability was computed and financed as follows:

The actuarial accrued liability, associated with service rendered prior to the valuation date, was computed using the investment return, mortality and other factors outlined on the following pages. The difference between the computed actuarial accrued liability and Plan assets were financed as a level percent of payroll over a period of 33 years.

Summary of Valuation Assumptions

The rate of investment return used was 9.0 percent a year, compounded annually. The assumption consists of 3.5% for assuming maturity and principal risks and 5.5% in recognition of inflation. These components, adopted by the Fund Manager were first used for the June 30, 1987 annual valuation.

This assumption is used to discount the value of future payments.

The rates of salary increase used are in accordance with the following table. The assumption is used to project current salaries to those upon which pension amounts will be based. These components, adopted by the Fund Manager, were first used for the June 30, 1987 annual valuation.

Sample Ages	Percent Increase in Salary During Following Year		
	Base		Promotion and Longevity Total
	Inflation	Other	
20	5.50%	1.00%	3.00%
25	5.50	1.00	3.00
30	5.50	1.00	2.60
35	5.50	1.00	1.10
40	5.50	1.00	0.20
45	5.50	1.00	0.20
50	5.50	1.00	0.20
55	5.50	1.00	0.10
60	5.50	1.00	-
65	5.50	1.00	-

No increase was assumed in the flat dollar amounts of post-retirement health insurance subsidies.

Summary of Valuation Assumptions (continued)

The Mortality table used was the 1971 Group Annuity Mortality Table Projected to 1984 (Male), female ages set back 6 years. (First used for June 30, 1995 valuation.)

Sample Ages	Deaths per 1,000		Single Life Retirement Values			
			Present Value of \$100 Monthly for Life		Future Life Expectancy (years)	
	Men	Women	Men	Women	Men	Women
20	0.5	0.5			55.98	61.84
25	0.7	0.5			51.12	56.96
30	0.9	0.7			46.27	52.09
35	1.2	0.8			41.46	47.24
40	1.8	1.1	\$12,861	\$13,224	36.69	42.42
45	3.2	1.7	12,430	12,933	32.01	37.64
50	5.8	2.8	11,879	12,526	27.53	32.93
55	9.3	5.2	11,199	11,999	23.28	28.41
60	13.9	8.5	10,346	11,347	19.27	24.11
65	21.8	12.8	9,308	10,532	15.55	20.05
70	35.1	19.7	8,145	9,530	12.25	16.27
75	57.0	32.1	6,963	8,382	9.50	12.87
80	93.9	51.9	5,748	7,206	7.17	10.02
85	143.5	85.1	4,696	5,983	5.43	7.59
90	200.6	132.2	3,796	4,893	4.10	5.74

This assumption is used to measure the probabilities of members dying before retirement and the probabilities of each pension payment being made after retirement.

Summary of Valuation Assumptions (continued)

The rates of retirement used to measure the probability of eligible members retiring during the next year were as follows:

Age	Percent of Active Members Retiring During Next Year
45	25%
46	25
47	25
48	25
49	25
50	25
51	25
52	25
53	25
54	25
55	25
56	25
57	20
58	20
59	20
60	20
61	20
62	20
63	20
64	30
65	100

Active members are eligible to retire at any age with 25 years of service, at age 62 with 10 years of service or when the sum of age and service equals at least 80.

These rates were first used for the June 30, 1995 valuations.

Summary of Valuation Assumptions (continued)

The **rates of separation for active membership** were as follows:

These rates were first used for the June 30, 1995 valuations. Rates do not apply to members eligible to retire and do not include separation on account of death. This assumption measures the probabilities of members remaining in employment.

Sample Ages	Years of Service	Percent of Active Members	
		Separating Within the Year	Becoming Disabled Within the Year
ALL	0	25.00%	(all years of service)
	1	20.0	
	2	18.0	
	3	15.0	
	4	12.0	
25	5 & Over	7.0	0.15%
30		5.5	0.20
35		4.3	0.25
40		3.0	0.50
45		2.3	0.65
50		1.5	0.80
55		1.5	0.95
60		1.5	1.00

**STATE OF ARIZONA
CORRECTIONS OFFICER RETIREMENT PLAN
SOLVENCY TEST**

SOLVENCY TEST—Testing the financial solvency of a retirement plan can be done in several ways. The funding objective is to meet long-term benefit promises through contributions that remain approximately level from year to year as a percent of member payroll. If the contributions to the plan are level in concept and soundly executed, and if the plan continues its present operations pattern for the indefinite future, the plan will pay all promised benefits when due---the ultimate test of financial soundness.

A short term solvency test is one means of checking a plan's progress under its funding program. In a short term solvency test, the plan's present assets (cash and investments) are compared with:

1. Active member contributions on deposit;
2. The liabilities for future benefits to present retired lives;
3. The liabilities for service already rendered by active members.

In a plan that has been following the discipline of level percent of payroll financing, the liabilities for active member contributions on deposit (liability 1) and the liabilities for future benefits to present retired lives (liability 2) will be fully covered by present assets (except in rare circumstances). In addition, the liabilities for service already rendered by active members (liability 3) will be partially covered by the remainder of present assets. Generally, if the plan has been using level cost financing, the funded portion of liability 3 will increase over time. Liability 3 being fully funded is very rare. All amounts presented are in thousands.

Valuation Date	Aggregate Accrued Liabilities For			Valuation Assets Available for Benefits (2)	Portion Of Accrued Liabilities Covered by Net Assets Available for Benefits		
	(1) Active Member Contributions	(2) Retirants And Beneficiaries	(3) Active Members (Employer Financed Portion)		(1)	(2)	(3)

	- Children with Guardians	10	56,983	5,698
	TOTALS	150	\$ 1,144,742	\$ 7,632
TOTAL PENSIONS BEING PAID		708	\$ 6,884,614	\$ 9,724

	<u>Average Age (yrs)</u>	<u>Average Service (yrs)</u>	<u>Average Age At Retirement (yrs)</u>
Service retired members:	65.8	14.4	61.6
Disability retired members:	50.7	8.9	47.6
Spouse beneficiaries:	55.8	8.6	46.6

**STATE OF ARIZONA
CORRECTIONS OFFICER RETIREMENT PLAN
SUMMARY OF BENEFIT INCREASES**

State law provides for an annual benefit increase for retirees or their survivors who are over age fifty-five on the effective day of the increase and for disability retirees regardless of age. These increases are dependent upon the production of excess earnings on part of the assets of the Fund and are limited to four percent of the average benefit being paid to retirees and their survivors. The following schedule summarizes the statutorily-designed process of calculating the monthly benefit increases effective each July 1st.
